Accessing Nursing & Health Sciences Databases
Jill Turner, Librarian
turnerja1@udmercy.edu or 313-494-6903

1. Go to the UDM Library Website – research.udmercy.edu

2. Select the Articles Journals, + Databases tab at the top of the page.

3. Choose Nursing/FNP/Nurse Anesthesia from the drop down menu under Find articles in Library databases
4. Choose the **Nursing Library Guide** link.

5. This is the new nursing homepage. Choose the **Find Articles** tab.
6. Health sciences / nursing databases are linked in the boxes in the left hand column of the webpage. Scroll through the databases and click the title of the database you want to search.

* Databases for Nursing- Comprehensive List is a complete list of all of the nursing /biomedical / health sciences databases to which UDM has access. Each database has unique articles. The Evidence Based Databases also appear within this list.

* Evidence Based Databases is a list of the databases that are easier to limit to evidence based practice.

5. If you need help setting up your search see the Search Tips handout or contact a librarian.
